SaskStartupSolutions: Top 50 Target Keywords

Selected from the agency's keyword sheet · November 6, 2026

Chosen by priority service (incorporation, then registration, then bookkeeping), buying intent, local focus, and the path from business setup to recurring bookkeeping. Search volume and difficulty have not been checked yet.

50	SaskStartupSolutions Saskatoon	Branded

Left out, and why

- **"Near me" keywords:** Google answers these from the Google Business Profile and the searcher's location, so page text doesn't help.
- **Seasonal keywords** (January registration, year-end, February launch): better as a later blog calendar.
- **Russian, Armenian and French-script keywords:** only worthwhile once translated pages exist.
- **"business registration office Saskatoon":** likely brings people looking for the government office.
- **T2 and corporate tax phrasings:** corporate tax is positioned inside the bookkeeping relationship.
- **Most branded variants:** one is enough while the brand naming question is open.

Before finalizing

- Agency to check search volume and difficulty; swap near-zero Saskatoon terms for broader Saskatchewan versions.

- "Cost" keywords can use public government fees; decide whether pages will show SaskStartupSolutions pricing.
- Content for "how long does incorporation take" must not promise timelines.
- Confirm the website domain in the Brand & Marketing Facts file (it currently lists viciconsulting.ca).
